

## Gunpowder and High Explosives (Paperback)

---

By Willoughby Walke

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1893 edition. Excerpt: .water is made to circulate during the mixing. ttThis step is attended with the evolution of considerable heat, which, unless regulated, is liable to fire the charge. It is therefore necessary to watch a thermometer (the bulb of which is immersed in the mixtnre) carefully, and should the temperature rise above 80 P., the introduction of the glycerine is stopped. UThe presence of acid in a solution is shown by the color of blue litmus paper being changed to red when dipped in it. If a solution is alkaline, the oolor of red litmus paper is changed to blue. 13579-4 6. The nitroglycerine is transferred from the washing apparatus, through coarse musl1n filters, to the storage tanks, where it is kept generally under water. The French method of making nitroglycerine differs in principle from that just described. In this process two mixtures are made, one...
