A new way of living -Do we need to change our way of living on this planet According to this book, a definite Yes Our attitudes, priorities, and the way we have looked after the environment have resulted in a situation that is no longer sustainable for a healthy and harmonious future for us and for generations to come. We have seen increased pollution of the air and water; diminishing forests, ice caps, and ozone layers; warming of the planet, resulting in weather and climate changes, and with that danger of extinction for many bird and animal species. And lets not forget: danger for the survival of us human beings! Can we still do something about it, or is it all too little and too late What is our fate The message in this book can be considered a wake-up call, an urgent reminder to mend our ways, to change our attitudes, and to have a critical look at what is happening around us; what our roles are and what we as individuals and members of groups and communities can do to bring about change. We are not alone in this endeavour-the messages giving us support and encouragement are coming from a spirit source, channeled by the author through automatic writing. The special readings deal with topics such as: where we come from, what our purpose is, predictions and climate changes, together with information on relationships and finding inner peace and spiritual growth.
