Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 322 pages. Dimensions: 11.0in. x 8.5in. x 0.7in. For the first time ever, a series of restored documents is available from the US Air Forces 22 year study of UFOs. The span covers the beginning of the project, which includes cases from June 1947 and prior. Anyone who has reviewed the pages of the US Air Forces Project Blue Book UFO study either at the US National Archives or via online digital scans might have noticed a common thread among them all, their lack of legibility. Cameron Pack, a UFO researcher from Virginia, has spent many months worth of effort transcribing the earliest cases from the governments UFO records into a clear and legible format. In his volume, Restored Project Blue Book UFO Files: June 1947 and Before, Pack gives the public a perspective of the records that no one has ever seen until now. The US Air Force officially studied the phenomenon of Unidentified Flying Objects from 1947 to 1969 under the name of Project Blue Book. Much of the studys records were retired to the US National Archives in 1975 and made available for public viewing on rolls of microfilm, while other additional microfilm files were preserved in private collections. The microfilming process has left many pages difficult to read and some sections literally impossible to decipher. A volume of restored Project Blue Book files has no doubt long been a wish for UFO historians. The Restored Project Blue Book UFO Files: June 1947 and Before is a unique and intriguing window to the time that is often referred to as the beginning of the modern UFO era. It is a solid foundation of research for those who are interested in the US Air Forces involvement with...
