Trafford Publishing, United States, 2012. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.It was the brainchild of Henry Ford and inventor William Bushnell Stout. It was the Ford Tri Motor, affectionately called the Tin Goose, the first all-metal passenger plane built in the United States. Only one hundred ninety-nine were ever manufactured, but they launched regular scheduled flights in America, introducing almost everything we have in air travel today-from stewardesses to concrete runways in airports. All major airlines started with this plane. Byrd flew to the South Pole in one. FDR dreamed up the New Deal flying in another to the Chicago convention where he was nominated for president. In a Ford Tri-Motor, Lindbergh inaugurated the first transcontinental air service. And when speedier Boeings and Douglasses pushed the Ford Tri-Motor off the major air routes, the Tin Goose kept flying commercially for another fifty years, barnstorming from city to city giving hundreds of thousands of Americans their first plane ride, dusting crops and fire-fighting in the Midwest, and hauling freight and passengers into remote Central American jungles and over the Andes. This revised and updated edition of The Saga of the Tin Goose relates the story of this remarkable plane from its 1920s beginnings to the present, and tells where you can see and fly Ford Tri-Motors today. This is not only the story of Mr. Ford's venerable Trimotor, it is a highly readable and complete history of commercial aviation and scheduled airlines. -AVIATION Airplane buffs will find plenty of detail on the design and performance of the Trimotor and other famous planes. This tightly organized, factual presentation, enhanced by old photographs, conveys a sense of the precariousness of early aviation. -THE KIRKUS REVIEWS David Ansel Weiss...
